

COVID-19 – CENTRE – AFTER SCHOOL PROCEDURES

Children Who are Dropped Off

- If a child is dropped off at the centre by a parent/guardian, the regular drop off screening procedures are followed as detailed on the **Breaking Down the Day** document.

Children Who Walk back After School (with Cook's Staff)

- After completing the **After School Pick Up Confirmation** list, educators will walk to school and meet the children outside at the designated spot in the school yard and at the fence of the Jk/Sk playground. Teachers send the children out to us.
- Educators will perform a visual check on all children for any signs of ill health. If there are any signs of ill health the parent will be called for pick up of the child. The child will not be taken back to the centre.
- Once in their room the school age children will take turns to wash their hands before they begin to play.
- Children are not required to wear a mask indoors unless they wish to do so.
- Children will be spaced out during snack as much as possible.
- If a child starts to experience symptoms the **Plan for Sick Children** will be implemented.
