AWARENESS QUIZ

AWARENESS QUIZ

Purpose: This quiz will help you to evaluate any misconceptions you may have about people with disabilities

Which of the following statements are true/false? (Circle the appropriate answer).

	e answer).
True	False
	True True True True True True True True

AWARENESS QUIZ (CONTINUED)

14. If you see someone who uses a wheelchair having trouble, you should give him or her push.	True	False
15. Over one million Canadians have some kind of disability that makes it difficult for them to read conventional print.	True	False
16. When a customer with a disability is in your workplace, you should always provide extra attention.	True	False
17. Guide dogs see colours and read signs.	True	False
18. People who are Deaf or hard of hearing see better than everyone else.	True	False
19.People who are Deaf, deafblind or hard of hearing cannot talk at all.	True	False
20. People who use wheelchairs are paralysed.	True	False
21. Mental health disability is a rare, untreatable disorder.	True	False
22. People with learning disabilities cannot be productive	True	False
23. Intellectual disability is the same as mental health disability.	True	False
24. About one in seven Ontarians has a disability.	True	False
25. Forty-seven percent of Ontarians over the age of 65 have disabilities.	True	False

AWARENESS QUIZ (ANSWERS)

Answers to Awareness Quiz

- 1. **True** Barriers are broken down in part through open, positive attitudes and accepting people for who they are, not what they can or cannot do.
- 2. True A disability is just one of the characteristics of the individual, but too often, the disability is seen before the person.
- 3. False Some disabilities are the result of a disease; some are inherited; and others are the result of an accident.
- 4. False People with disabilities have different interests and enjoy different activities just like everyone else.
- 5. False There are many modifications available for vehicles to allow people with disabilities to drive, including people in power wheelchairs.
- 6. False It is important to look directly at someone who is hard of hearing and speak clearly. Shouting may only create sound distortions when amplified through the hearing aid.
- 7. False People who have vision loss may prefer to take your arm when you are guiding them. Ask if they need your assistance first.
- 8. False There are many helpful aids for people who have physical disabilities which may help them to be more independent.
- 9. False There are different systems that allow someone who is Deaf to use the telephone, such as the Teletypewriter (TTY) or a relay system.
- 10. True Many people with disabilities can enjoy activities just like everyone else. Often barriers - not disabilities - prevent people with disabilities from participating in everyday life.
- 11. False Generally, people with vision loss have no better sense of hearing than anyone else, though many people with vision loss learn to use their other senses more efficiently.
- 12. False There is no need to use special language around people who have vision loss. They use the same expressions as everyone else.
- 13. True Most people who are Deaf or hard of hearing can speechread, but not all do it well. Most can understand about 25 per cent of what is being said. People who excel at speechreading can understand approximately 45-50 per cent of what is being said.
- 14. False Try to respect the person's independence by asking if your assistance is needed first.

AWARENESS QUIZ (ANSWERS - CONTINUED)

- 15. **True** It is estimated that one million Canadians have a disability that makes it difficult or impossible for them to read conventional print. An increasing number of senior citizens are becoming part of this group.
- 16. False People with disabilities may require assistance at times but you shouldn't assume assistance will be needed in every case. Your customers want to be treated with dignity, so consider discreetly asking if help is needed first.
- 17. **False** Guide dogs do not see the colours of traffic lights and do not read the signs on washroom doors. The owner decides when to cross the street by listening to the traffic flow.
- 18. False Generally, people who are Deaf or hard of hearing have no better sense of sight than anyone else, but they may concentrate more on what they are seeing.
- 19. False People who are Deaf, deafblind or hard of hearing may choose not to speak because they are unsure of pronunciation, or are concerned that their voices may sound different. Most people who are Deaf, deafblind or hard of hearing can make sounds, and can probably speak some words.
- 20. **False** Not everyone who uses a wheelchair is paralysed. People might use a wheelchair if they have arthritic spines or sore legs, severe asthma or a heart condition that limits their ability to walk.
- 21. False Many types of mental health disabilities are treatable and not necessarily permanent.
- 22. **False** Many people develop ways to work with, or around, their particular type of learning disability. Repeated practice can help a person with a learning disability perform some tasks with less difficulty.
- 23. False Unlike mental health disability, intellectual disability is a limitation affecting intellectual capacity, not emotional equilibrium. Also, an intellectual disability is a permanent condition that cannot be medically treated or cured.
- 24. **True** According to the Participation and Activity Limitation Survey, 2006, from Statistics Canada, about 1.85 million Ontarians (one in seven) have a disability.
- 25. **True** According to the Participation and Activity Limitation Survey, 2006, from Statistics Canada, about 47 percent of Ontarians over the age of 65 have a disability.

TEST YOUR KNOWLEDGE

TEST YOUR KNOWLEDGE

1E31 YOUR KNOWLEDGE		
Which of the following statements are true/false? (Circle the ap	propriate o	ınswer).
 Under the Accessibility for Ontarians with Disabilities Act, 2005, different standards on accessibility are being developed that will set requirements for the identification, removal, and prevention of barriers for people with disabilities in key areas of daily living. 	True	False
2. The customer service standard is a voluntary standard. Your business or organization can decide whether or not to put it into practice	True	False
The term "disability" only applies to people who use wheelchairs.	True	False
4. Avoiding someone because of their disability is a barrier in attitude.	True	False
5. Your organization must accept feedback about the way it provides goods or services to people with disabilities.	True	False
6. You should not ask your customer to repeat himself if you don't understand him the first time. It might offend him.	True	False
7. If a person has vision loss they cannot see anything.	True	False
 It's helpful for someone who uses a hearing aid if you reduce background noise. 	True	False
You should always speak directly to your customer, not to their support person or companion.	True	False
10. If your customer uses a manual wheelchair, feel free to push them around your store.	True	False
11. You can always tell when someone has a disability.	True	False
12. Assistive devices enable a person with a disability to do everyday tasks and activities.	True	False
13. Your organization must allow people with disabilities who use a support person to bring their support person with them while accessing goods or services on parts of the premises that are open to the public.	True	False
14. Service animals should be treated as pets.	True	False

TEST YOUR KNOWLEDGE (ANSWERS)

Answers to "Test Your Knowledge"

- 1. True.
- 2. False All providers of goods and services to the public or other third parties with one or more employees and all designated public sector organizations in Ontario must comply with all of the applicable requirements of the customer service standard.
- 3. False The AODA uses the same definition of "disability" as the Ontario Human Rights Code, which includes both visible and non-visible disabilities. The term "disability" does not only apply to people who use wheelchairs.
- 4. True.
- True.
- 6. False If you cannot understand what your customer is saying, politely ask again.
- 7. False Few people with vision loss are totally blind. Many have limited vision such as tunnel vision, where a person has a loss of peripheral or side vision, or a lack of central vision, which means they cannot see straight ahead. Some people can see the outline of objects while others can see the direction of light.
- 8. True.
- 9. True.
- 10. False Don't touch a person's wheelchair or assistive device without permission.
- 11. False Disabilities can be visible and non-visible. You cannot always tell who has a disability.
- 12. True.
- 13. **True**.
- 14. False Service animals are working and have to pay attention at all times. Don't touch or address them.
